

We get it, you're busy.

Don't let that stop you from learning CPR!

Introducing...

LEARN AT YOUR PACE!

Franciscan Healthcare understands that individuals have diverse learning needs and busy schedules. To accommodate this, we offer the following blended learning program that combines online education with hands-on skills practice:

Heartsaver® CPR AED and First Aid \$65

This program is for individuals with limited or no medical training who need a course completion card in CPR and AED use to meet job, regulatory, or other requirements, or who just want to learn this valuable life-saving tool! This course mirrors that of the classroom-based Heartsaver® CPR AED First Aid course.

Upon registration, you will receive a link to access the self-paced online modules, and can complete these at your own pace.

Once completed, the in-person skills testing can be scheduled Monday through Friday by calling the **Cardiac Rehab Department at 402.372.6722**. This assessment will take less than an hour. Upon competency demonstration, you will receive an American Heart Association Heartsaver® CPR AED course completion card, valid for two years.
